BURRARD INLET LUMBER MILLS.

S. P. MOODY & CO., Proprietors,
New Westminster.

AGENTS IN VICTORIA:
PICKETT & CO., Wharf-street.

THESE MILLS are prepared to furnish cargoes of FIR, SPRUCE and CEDAR LUMBER, Tongued and Grooved Flooring, Spars, Piles, Shingles, Laths and Pickets at the shortest notice.

The access to the Mills is up the Gulf of Georgia to English Bay; thence up the Inlet. The anchorage in the bay is safe in all weather. The Inlet is perfectly land-locked, with plenty of water at all times for the largest class vessels.

Vessels loading at these Mills will have every facility for loading. The quality of Lumber is superior to any on the Pacific Coast, and can be furnished to any length up to 80 feet. There is a Deputy Collector at the Mills to enter and clear vessels.

A Lumber Yard has been opened on Front Street, New Westminster, where a complete assortment of choice lumber will be found.

For further particulars apply to Mr. W. B. Wilson, Columbia Street.

NOTICE.

AFTER THIS DATE, URIAH NELSON & CO. ARE not responsible for damage on Oils or Liquids shipped in Tin or Glass, unless by special contract made in writing in respect of such goods at the time of shipment.

NOTICE TO MARINERS

ENTERING

FRASER RIVER.

ALL previous notices issued by the Harbour Master of British Columbia, having reference to the Sand Heads of Fraser River, are hereby rescinded.

The following directions are published for general information:

The Beacons carried away since last fall have been re-constructed, excepting the South Sand Head No. 1, and the following alterations and additions made:

The Light Ship now building will be placed near to the South Sand Head, being substituted for No. 1 Beacon:

The Beacons are formed with clusters of piles, each Beacon having a distinguishing feature at the top of the piles, and being numbered consecutively from 2 to 10, irrespective of the Crib on the North Sand Head.

No. 2. BEACON, NORTH SAND HEAD—Placed in 1 foot at low water, 4 a cable from the buoy in a N. W. direction, showing from a Southern bearing a black diamond elevated on a pole 16 feet above the top of the piles.

A 1 of a cable distant from No. 2 Beacon, farther on the Sand, is a loaded crib, in an incomplete state at present; at high water spring tides it is awash, but at low water it looks like the hull of a small vessel. A pole 20 feet long with a black board at the top pointing to the Channel is secured to it. A permanent Sea Mark will be built upon it in the course of a few months, of which due notice shall be given.

No. 3. BEACON, NORTH SAND—In 6 feet at low water, shows black and white horizontal stripes both on the pole and beacon, and is situated about half-way between chequered and black buoys.

No. 4. BEACON, NORTH SAND—1 cable distant in a S. W. direction from black top buoy, is distinguished by a black triangle elevated on a white pole 16 feet above the piles, and placed in 2 feet at low water. The piles are white-washed.

No. 5. BEACON, NORTH SAND—On the spit 1 1/2 cable from red top buoy (placed in 5 feet at low water). This Beacon is remarkable from its leaning position and is readily distinguished by the red cask on a white pole above the piles, the tops of which are also white.

No. 6. BEACON, NORTH SAND—1 cable distant from white buoy in a Westerly direction, is placed in 7 feet at low water. On the top of the pole is a white triangle, the apex of which is on the lower part of the pole. This beacon forms a conspicuous object and must be appreciated, as it will guide vessels in the Channel when entering and leaving the River. The beacon is all white.

No. 7. BEACON, SOUTH SAND—Is a black beacon placed in 6 feet at low water, having a St. Andrew's cross elevated on a pole 16 feet above the piles.

No. 8. BEACON, SOUTH SAND—A cable's length from No. 7, in 1 foot at low water. This Beacon is white, having a St. Andrew's cross on a pole as above described in No. 7. As these Beacons, No. 7 and 8, are intended as marks for crossing the Bar, they are hereafter alluded to as the x Beacons. This Beacon (No. 8) is not to be regarded in any way except to lead vessels over the Bar in the deepest water, deepest water.

For Vessels of large draught the x Beacons will be found invaluable, as by taking care to "port" sufficiently soon, after passing the black top buoy, so as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water Spring Tides. In all other parts of the Channel much deeper water will be found. After the red top Beacon is brought in a line with the white Beacon (No. 6), the red top buoy may be with safety rounded, then steer in direction for the white buoy, and from thence to the Ball Beacon on Garry Point.

No. 9. BEACON, SOUTH SAND—On the edge of the bank, placed in 1 foot at low water, is nearest to the Mouth of the River, and distinguished by a black pole having at the top two black boards on two sides of the pole horizontal with each other. The tops of the piles are also black.

No. 10. BEACON—Is a land mark placed on Garry Point to indicate the Mouth of the River, which shows from every direction a large White Ball. The braces, 6 feet of the pole, and the tops of the piles are black.

The lower part of the Beacon is white-washed.

All buoys on the North Sand, after entering the Channel with Vessels of large draught, should be passed close on the "port" hand. Caution is hereby given that the Beacons constructed on the Sand Heads are not intended as marks for the Navigable waters of the Channel but to indicate the locality of the several buoys.

The old white buoy has been removed and a red spar buoy placed on the spit of the middle Sand inside Garry Point, in 12 feet at low water, which must be passed by Vessels entering the River on the starboard hand, by following the above directions Mariner will find the Channel well and clearly defined, and with ordinary care a perfect stranger may navigate his Vessel with safety into Fraser River.

JAMES COOPER,
Harbour Master

THE INVALID'S FRIEND.

HOLLOWAY'S PILLS.

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of these Pills every night; eat plenty of solids, and avoid the use of sweets. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters.

If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints, these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

The Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of liver & stomach.

Bronchitis, Diphtheria, Coughs, Colds.

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of blood, relieve any over-gorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity. These Pills, by their purifying powers, cleanse the blood from all impurities, and thus fortify the system against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree healing, renovating and restorative. They drive from the system the morbid cause of disease, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

Billiousness, Loss of Appetite, Head-ache and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache, and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symp-toms
Colic	Indigestion	The Douloureux
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Com-plaints	Veneral Affections
Dysentery	Lumbago	Weakness of all kinds
Erysipelas	Rheumatism	Whatever cause, &c., &c.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1ld., 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each Box.

** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

NEW WESTMINSTER, SATURDAY, AUG. 26, 1865.

THE GOLD EXPORT TAX.

There is probably no one measure which has evoked more discussion, or which has been made a greater handle of by the Victoria Union clique and their minions in Cariboo, or which has been made the subject of a greater amount of misrepresentation, than has the measure passed during the last session of the Legislature, imposing an export tax of two shillings per ounce upon gold. An earnest desire to disabuse the mind of the miners of the misapprehension created by a class of politicians who seek to make use of this question for the furtherance of their own selfish schemes, is our excuse for recurring to a subject which has become almost stereotyped in these columns. We, therefore, crave the indulgence of our readers, and the patient and candid attention of that important class of colonists on whose behalf we especially write. It has been asserted by the opponents of this tax that it was devised by a New Westminster clique, and it is charged against Governor Seymour that he was unduly influenced by that clique in giving his assent to the measure. A brief glance at the history of the measure will be a sufficient refutation of all such party clap-trap. As far back as the autumn of 1858 we find the then Governor, in a dispatch, advocating the establishment of an assay office at Victoria, saying with respect to an export tax upon gold: "This (that is the establishment of an assay office,) would throw the export of gold into the hands of large dealers, who, having no inducement to smuggle equal to the risk, would export through the lawful channel, paying the duty, which they in turn would take care to levy on the miner, by deducting it from the price paid. An export duty might then be imposed with advantage, and be found easy and cheap of collection." A little later he says, respecting this same tax: "An export duty on gold would now yield a respectable amount of revenue, and together with the duties levied on imports, would probably yield an income of £100,000 per annum." Thus we have the most incontrovertible evidence that the then Governor was not only in favor of the tax, but that he urged it upon the Imperial Government as an important reason for the establishment of an assay office. A little further on we find His Grace, the late Duke of Newcastle, in a dispatch announcing the assent of Her Majesty's Government to the establishment of an Assay, using the following language:—" * * * and having regard to the advantages to the miners in ascertaining and realizing their treasure, as well as to the facilities which will be afforded in the collection of a revenue from an export duty on gold, Her Majesty's Government have given their sanction to the measure." Here, then, we have the most conclusive proof that the Imperial Government not only viewed the tax favorably, but conceived it to be of sufficient importance to constitute a valid reason for the immediate establishment of an assay office, and in subsequent dispatches we find the late noble Duke following up the same subject by remarking that the tax had not been imposed, although its importance had been urged, and a heavy expenditure incurred chiefly for the purpose of facilitating its collection. These facts will afford a very conclusive reply to the twaddle indulged in by the *Sentinel* to the effect that such a tax could not have been inflicted upon the colony under the wise administration of Sir James Douglas, and during the incumbency of the late Duke of Newcastle. We shall doubtless be met here with the query, "If Sir James Douglas was in favor of the tax, how does it come that he never imposed it, but, on the contrary, when urged to do so by the Legislature, declared that it should never become law under his administration?" There is only one reply to this query. Governor Douglas, although urgently recommending the establishment of an assay office at Victoria, for British Columbia purposes, and at the expense of this colony, was well known to be bitterly opposed to its establishment here, (vide the Treasurer's Report, Blue Book, part 3, page 14,) and from the moment it was decided that the assay should be established in New Westminster instead of in Victoria nothing more is heard from that quarter about the desirability of levying an Export Tax upon gold, thus leaving it fairly to be inferred that had he got his own way about the one, the other would undoubtedly have followed. We now come down to the first meeting of the Legislative Council, when a bill was introduced for the imposition of an export duty upon gold, and passed by a unanimous vote of the House, including the members for both ridings of Cariboo! The bill was, however, shelved for the nonce by Governor Douglas, the original advocate of the

measure. The question next makes its appearance in April last, when the *Williams Creek Mining Board*, in session here, passed a unanimous vote in favor of the tax!! It was not surprising that a measure thus recommended by Governor Douglas, and by the late Duke of Newcastle, unanimously passed by the first Legislative Council, and recommended by the Mining Board, a body elected directly by the miners of Williams Creek, and solely representing their views and interests, should be acquiesced in by the Government. The tax was accordingly introduced during the second session as a Government measure, when it again received the unanimous vote of the House, including the two members for Cariboo! It is a circumstance worthy of special remark that the Gold Commissioners from every district strongly advocated the measure, both in and out of the House! In justice to the member for Cariboo East, it may be proper to state that he was opposed to the rate of 2s. an ounce, being in favor of 1s. 6d. It is right that we should also state that the Mining Board were in favor of a less rate than 2s. Here, then we have the history of the much discussed, much misunderstood, much misrepresented Gold Tax. And what a scathing rebuke is all this to the disingenuous and contemptible bunkum so constantly poured forth through the columns of the *Sentinel*, and re-echoed by the press of Victoria. It has been alleged that the tax was "imposed at the instance of men who had only the enhancement in value of their miserable town lots in New Westminster in view," and the measure has, time and again, been set down to the credit of the member for this district, a New Westminster clique, and a localized Governor, who had allowed himself to become the mere tool of a contemptible party. How does all this harmonize with the facts? With just as much show of fairness might the measure be charged upon any individual member who supported it, or upon any constituency represented by such member. With far more justice might the Editor of the *Sentinel* turn round and abuse the miners of Williams Creek for electing a Mining Board who passed a resolution in favor of the tax, or for electing two consecutive members to represent them in the Legislative Council who supported it. Indeed if there is one section of the community more than another responsible for the enactment of the Gold Export Bill it is the miners of Williams Creek, and their representatives, for it is very certain that had it been opposed by the Gold Commissioners, the Mining Board and the members for the mining districts, it never would have become law. But, of course, that would not serve the purpose of the editor of the paper alluded to. His object is to create dissatisfaction in the minds of the miners, and to get them pitted against New Westminster, with a view to the furtherance of the scheme he was sent there to promote; and no trickery would appear to be too mean, no subterfuge too contemptible to be employed in the attainment of that object. We regret that any of the miners should have been led away by the scurrilous sheet alluded to; and we would ask a careful and candid perusal of the simple facts which we have honestly laid before them, feeling assured that a knowledge of these facts will lead them to do justice to the Governor, and to the people of New Westminster, who have been so systematically and so foully misrepresented by unprincipled and designing men. Whether the measure is a good or a bad one it is not our business to discuss in the present article. But common honesty demands that it should not be fathered upon the Governor, or New Westminster, or the member for this district, or, in short, upon any man or party of men in particular, but upon the Secretary of State for the Colonies, upon Sir James Douglas, who so strongly recommended it in the first instance, and upon the colony, as a whole. We ask the miners to treat this question with that fairness and honesty which so largely characterize their general actions, and refuse to have their minds poisoned by an unscrupulous sheet, either against the Governor or the people of this city, who certainly had no more to do with originating or passing the bill than they had themselves.

CASH! CASH! CASH!

THE SUBSCRIBER has just received by the last steamer the largest and best selected stock of Dry Goods, Clothing, Boots and Shoes, etc., ever brought to this city, which he offers for sale at unprecedentedly low prices—for CASH only. This stock, having been purchased for cash, will be sold only for cash, and at cash prices, consequently it will be useless to ask for credit. Orders from the Interior will receive prompt attention, and it will always be the endeavor of the subscriber to give perfect satisfaction to all those who may favor him with orders.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad

Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
wound cases readily assume a healthy appearance when-
ever this medicament is applied; sound flesh sprouts
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and scrupulous
cleanness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &

other Skin Diseases.

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsey,

Mumps & all other Derangements

of the Throat.

On the appearance of any of these maladies the Ointment
should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ul-
ceration. The worst cases will yield to this treatment by
following the printed directions.

Scrofula or King's Evil and Swelling

of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a scrofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following

cases:---
Bad Legs. Chapped Hands. Scalds.
Contracted and Stiff Joints. Sore Nipples.
Buns. Sore Throats. Skin Diseases.
Rheumatism. Elephantiasis. Scoury.
Bite of Mosquitoes. Fistulas. Tumors.
and Sand-Flies. Gout. Ulcers.
Coco-bay. Glandular Swel- Wounds.
Chiego-foot. Rings. Taws.
Gorns (soft). Lumbago. Piles.
Cancers. Rheumatism. Chills.
Scurvy.

Sold at the establishment of PROPRIETORS HOLLOWAY

244, Strand, (near Temple Bar) London: and by all re-

spectable Druggists and Dealers in Medicines through-

out the civilized world, at the following prices:---in

1ld., 2s. 9d., 4s. 6d., 11s., 23s., and 33s. each Pot.

*There is a considerable saving by taking the

larger sizes.
